FLEXIBLE TEAMING

AVision's core network is based in Syracuse NY, Melbourne and Fort Myers FL, New York City, San Antonio and Austin TX, San Francisco CA, Los Angeles, and the Washington DC metro area. We draw upon a network of experts from around the country and the globe to appropriately serve our clients.

It allows us to be nimble and maintain low overhead — a benefit we pass on to our clients' budgets.

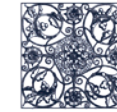

AVision

Experienced domain expertise. Certified Cost Analysts. Certified PMPs.

We wrote the book on program management

Our Chief Scientist wrote the EVM portion of what is now the PMBOK, and he defined the competency components required for the PMP certification. Our principals have tremendous experience, with over 150 years in science, engineering, technology and project management. We possess professional experience with every component of the Acquisition Process from cradle to grave. We have worked in design, development, deployment, maintenance, and disposition in many domains. This allows us to support IV&V efforts at the management and technical levels. In the discipline of Project Management, Life Cycle Cost and Earned Value Management our principals have served intelligence agencies, federal civilian agencies, municipalities, and many sectors of commercial industry.

We are the cream of the crop for your PMO requirements.

PROGRAM EXPERIENCE

AVIsion principals have supported multiple federal agency PMs, including the FAA, NASA and the NAVY. We have contractor PM experience with entities such as BNFL (DoE prime), VRC (Army Test Evaluation Center prime), Batelle and Boeing. We also work with commercial companies such as Westinghouse, Mobil Oil Corp, and United Technologies on their program requirements.

PROGRAM SERVICES

We provide acquisition, management and technical oversight services that support the PMO. We work to setup programs properly, identify risks as early in the process as possible, provide alternate path recommendations and monitor whether contractual obligations are being met once the program kicks off. AVIsion principals work as independent reviewers and mentors, and we also integrate into mixed teams.

CERTIFIED & AUTHORED

Our practice lead is the author of "The Pocket Guide to Program Management", Distinguished Professor of the Year, Defense Management College, and a Congressional Fellow. We have experienced and certified cost analysts and program management professionals. Our principals are NDIA and PMI members with intimate knowledge of the PMBOK, CMMI, and Six Sigma Lean Processes.

WE'VE WORKED WITH A DIVERSE CUSTOMER BASE. HOW CAN WE HELP YOU?

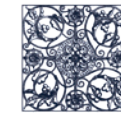

Intimate knowledge of industries, organizational cultures, technologies, and marketing approaches gives AVIsion a deep repertoire.

OUR COMPETENCIES

We are business executives, academics, and engineers who have success in our fields:

EARNED VALUE MANAGEMENT
PROGRAM MANAGEMENT
RISK MANAGEMENT
ALTERNATE PATH ANALYSIS
ANALYTICS
PERFORMANCE METRICS
ECONOMICS
EMERGING TECHNOLOGIES
PROJECT MANAGEMENT
BUSINESS PROCESS IMPROVEMENT
CHANGE MANAGEMENT
DECISION SUPPORT SYSTEMS
ENTERPRISE ARCHITECTURE
SOFTWARE DESIGN & DEVELOPMENT
INDEPENDENT VERIFICATION & VALIDATION

AVIsion

Our core approach to total PMO support follows the four step Agility methodology:

1. **Plan** - establishing management baselines and program alternatives that will deliver value.
2. **Acquire** - making sure the systems, infrastructure, and services satisfy operational needs, meet requirements, and are accomplished within the assigned baseline.
3. **Manage** - Ensure cost, schedule, and performance objectives are met through monitoring, measuring, and reporting progress against the baseline.
4. **Assess** - capture and evaluate performance to redirect an implementation or use as input to iteratively evaluate strategic direction & investment alternatives.
